6. (Confidential - DFM) LIAISON Informed David Bushong, Senate Select Committee on Intelligence staff, that the Agency had no records of the arrest of [redacted] in Latin America in 1975 or 1976. Bushong had asked that Agency records be searched as he had received this information from another agency.

7. (Unclassified - DFM) LIAISON Met with Stan Taylor, Senate Select Committee on Intelligence staff, who requested an NFAC briefing on 27 February on the issue of Soviet ability to detect U.S. nuclear submarines. Taylor previously reviewed documents on this subject, the most recent of which is 1976 and Taylor wants an update.

Taylor informed me that the Committee was hiring Richard Beal as a Committee consultant to aid the Committee in its understanding of IC's use of computers. Taylor asked that Beal's security clearance be set up for 27 February. In addition, he and Beal would like to meet with NFAC personnel on the SAFE computer program. Taylor and Beal would also like to meet with the NFAC officer in charge of external contracts on 27 or 28 February. Taylor indicated Tom Moore, of the Committee staff, might also be included in this session.

8. (Unclassified - DFM) LIAISON Met with Ted Ralston, Senate Select Committee on Intelligence staff, who indicated the week he was spending at NPIC was tremendously worthwhile.

✓ 11. (Unclassified - RJK) LIAISON Lot Cooke, of the Senate Select Committee on Intelligence staff, who suggested that a former member of the SSCI staff Tom Connaughton currently working for Chairman Birch Bayh (D., Ind.), of the Committee, might soon become involved in Committee business, requested that we reinstate Connaughton's clearances. I told him that there would probably be no difficulty in doing this but the policy question of a personal staffer holding compartmented clearances would have to be resolved. Cooke indicated he would pass the word along to his Staff Chief.

25X1 12. (Unclassified - RJK) LIAISON Joseph DiGiorgio, GAO, met [redacted] ORPA, 25X1 to discuss the Agency's role in international terrorism. After a discussion of his interests, it was decided to provide him with an unclassified summary of terrorist incidents prepared by NFAC. We agreed that he would review the material and come back to us with any questions he has.

25X1 13. (Unclassified - MMP) BRIEFING Accompanied three OCR analysts to debrief Representative Christopher J. Dodd (D., Conn.) on his recent trip with the Zablocki delegation to the Middle East. (See Memorandum for the Record.)

14. (Unclassified - MMP) LIAISON Mike Flannigan, House Permanent Select Committee on Intelligence staff, called and asked me to locate and send to the Committee the third in a series of 44 boxes which we are still holding from the old Pike Committee. I said that I would look into it and get back to him.

25X1 15. (Unclassified - MMP) LIAISON Ed Palmer, Staff Director, House International Relations Subcommittee on Asian and Pacific Affairs, called for Representative Lester L. Wolff (D., N.Y.) to ask whether we could locate a sanitized intelligence report which we had passed to 25X1 Congressman Wolff some months ago. Apparently, the Congressman had misplaced it and wanted to make reference to it during a press conference that he was going to hold at 10:30 that morning. [redacted] O/SA/DO/O, managed to locate it for me and I dropped it off with [redacted] while en 25X1 route to Representative Christopher J. Dodd's (D., Conn.) office.

8. (Confidential - GMC) LIAISON Spoke to Beverley Lumpkin, on the staff of the Subcommittee on International Organizations, House Committee on International Relations. Lumpkin said that Subcommittee representatives were scheduled to hold another meeting with Department of Justice officials on 16 February to work out arrangements for the lifting of the stand-down on new information. We discussed a meeting regarding public release of material which the Subcommittee saw prior to the initiation of the stand-down last October, and tentatively scheduled such a meeting at Headquarters for 23 February. I told Lumpkin that we could provide compartmented security briefings for two more Subcommittee staffers as soon as we were officially informed that the stand-down had been lifted. I advised her that further request for SI clearances would be carefully evaluated.

9. (Unclassified - GMC) BRIEFING Accompanied Molly Williamson, Research Director, House Select Committee on Population, to a lunch with NFAC/ORPA analyst [] and NFAC/OER analyst [] STAT
Following the lunch, I accompanied Williamson to a briefing by [] STAT
NFAC/OGCR/ERAC, two of [] staffers, and [] of OER, STAT
also attended. Williamson said that Subcommittee Chairman James H. Scheurer (D., N.Y.) wants to call the DCI to testify at open hearings on the security implications of demographic changes. Williamson believes that this is an unproductive way to proceed and is trying to convince Chairman Scheurer to broaden the focus of the hearings and to forego asking the DCI to testify. The NFAC analysts she met agreed with her substantive analytical approach to the population problem. Williamson said that Chairman Scheurer will almost certainly want to speak informally with an Agency representative knowledgeable about population matters. I told her we would be happy to arrange for such a meeting. I briefed [] NFAC/CSS, on the Williamson visit and the STAT
possibility that Chairman Scheurer may want to meet an Agency representative as early as next week.

10. (Unclassified - RJK) LIAISON Met with Dr. Leonard Weiss, of the Senate Governmental Affairs Subcommittee on Energy, Nuclear Proliferation and Federal Services staff, who reviewed an Agency document entitled, "Prospects for Further Proliferation of Nuclear Weapons," dated 4 September 1974. His purpose in doing so was particularly to focus on two paragraphs which had been deleted from an unclassified version the staff had read earlier.
